DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 4 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kastanis.

Kastanis discloses a retractable vehicle cover, for attaching to a vehicle having an upper surface, a roof, a front end, and a rear end, comprising a housing (14) having a first side, a second side, a forward facing surface, a rearward facing surface, and a lower surface, the forward facing surface and rear ward facing surface each have a substantially rectangular slotted opening (35), a plurality of suction cups (24), for securing the housing to the roof of the vehicle, a pair of reel assemblies (see figure 2), each reel assembly having a reel and a flexible sheet wound upon the reel, for covering the vehicle by extending the flexible sheet over the upper surface of the vehicle, one of the flexible sheets selectively extending forwardly from the slotted opening of the forward facing surface for extending to the front end of the vehicle, the other of the flexible sheets selectively extending rearwardly from the slotted opening of the rearward facing surface for extending to the rear end of the vehicle, both flexible sheets selectively retracting into the housing and winding upon the reel.

Allowable Subject Matter

3. Claims 1-3 and 6 are allowed.

Art Unit: 3612

4. Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Becker, Darmas, Sr., Brodskiy et al., UK Patent Publication 2145385, French Patent Publication 2703956, and German Patent Publication 3146169 disclose vehicle covers.
